Meeting Minutes Format

Minutes are a record of what was done, not what was said.
First paragraph should contain the following information:
• Name of SOMA and subgroup (i.e. National Board, Board of Trustees, etc.)
• Type of meeting (i.e. regular, special, etc.)
• Date and time of the meeting
• Note that the chairman was present or who substituted for them
• Whether the minutes of the previous meeting were read and approved as read or approved as corrected -- if it is desired to approve the minutes without reading them, it is necessary to suspend the rules for this purpose

A separate paragraph should follow for each subject discussed:
• State the important motions, name of the mover, and the disposition of the motion (i.e. how the vote went, etc.) -- is not necessary to record the seconder’s name
• It is not necessary to detail withdrawn motions
• List the result of all ballot votes
• All points of order and appeals should be recorded with the reasons given by the chair for the ruling being sustained or denied
• List names and subjects discussed by guest speakers, but there is no need to summarize their remarks

Note the hour of adjournment
Minutes shall be signed by the secretary who prepared them.

SECTION 2: PROCEDURAL INFORMATION FOR THE HOUSE OF DELEGATES

RESOLUTIONS
1. What is a resolution?
   A course of action that is to be acted upon during the House of Delegates meeting. It is any point of view or action that one believes should be acted upon by SOMA.

2. Who can submit a resolution?
   Any active member(s) of the Association with member co-sponsorship.

3. How does one write a resolution?
   A) One must use the general format outlined in the forms section.
   B) All resolutions must consider only one topic, one point at a time. Any resolutions submitted considering more than one point at a time will be separated by the HOD Reference Committee to form multiple resolutions.
   C) The authors of each resolution must clearly be recorded on each page.

4. How does a resolution become adopted?
   A) Each resolution must be submitted to the National Vice President and the National Office by the designated deadline date. Any resolutions submitted after that date will not be accepted for discussion at the upcoming HOD meeting.
B) Each resolution is submitted to the HOD Reference Committee composed members as established in Article IX, Section 10.
C) The authors of each resolution may present the proposal to the Reference Committee.
D) Discussion of the resolution shall be held by the Reference Committee. The committee can call on any member to address the issue before the committee. The discussion on the resolution will follow Robert's Rules of Order Revised, if deemed necessary. The Reference Committee Chairperson will oversee all procedures.
E) The Reference Committee will then draw up a report, during a closed session, on all the resolutions discussed.
F) The Reference Committee Chairperson will present the report to the general session of the House of Delegates.
G) The House of Delegates can make three types of motions to take action on a resolution. These are explained in detail within the RECOMMENDATIONS and MOTIONS sections below (specifically numbers 2, 3, and 4). Please use only these terms when debating an item.
H) Discussion of the resolutions on the floor of the House of Delegates shall be conducted by the Speaker of the House of Delegates according to Robert's Rules of Order Revised.
I) Voting will be by voice, except where the Speaker or a delegate calls for a Division of Assembly, in which a counted vote will be taken.
J) Resolutions which shall serve as amendments to the Constitution and/or Bylaws must be approved by a two-thirds majority vote of a quorum session of the House of Delegates.
K) Resolutions of other forms must be approved by a simple majority vote of a quorum session of the House of Delegates.

5. When should a resolution be presented?
There are three types of resolutions:
A) General Resolution: must be submitted to the National Office in resolution form at least sixty days prior to the next House of Delegates meeting.
B) Late Resolution: are submitted after the sixty day deadline, but before the House of Delegates Reference Committee meets. They shall require acceptance by a two-thirds majority vote of a quorum session of the House of Delegates to be eligible for submission to the Reference Committee for review and discussion.
C) Emergency Resolution: are submitted after the House of Delegates Reference Committee has met. They shall require acceptance by a two-thirds majority vote of a quorum session of the House of Delegates to be eligible for discussion on the floor of the House of Delegates.

6. How does one discuss a resolution?
A) The discussion of the Reference Committee report during the House of Delegates session shall be run by Robert's Rules of Order Revised. This is not to exclude individuals from the adoption process, but rather, to allow everyone to express their opinion in an orderly fashion.
B) Each Delegate and Ex-Officio member of the House of Delegates can debate any item on the floor by receiving recognition by the Speaker of the House of Delegates.
C) Each person must address the Speaker by giving one's name and school. There are only a few procedures one can take when debating an item and this must be stated within one's opening statement. Thus, an example of an opening statement would be:
"Mr./Madame Speaker, I am John Smith from the Kirksville delegation.
I am here to address the amendment of line 53 of Resolution Number 4."
D) The Speaker of the House of Delegates will try to alternate between pro and con statements on each issue.

E) To allow for efficient expedition of the resolutions, debate will be limited to fifteen minutes on each resolution.

RECOMMENDATIONS
1. The purpose of this process is to stimulate involvement in SOMA. The more one is involved in the process, the better the policy of the Association. Thus, it is recommended that your delegation discuss each resolution in detail and decide if this is a position that you can support, amend, or reject.

2. It is also recommended that all of the committees do not hesitate to submit resolutions that will increase the effectiveness and contributions of their programs to National SOMA and its members.
   a. To allow for an efficient discussion of each resolution, it is recommended that each delegation appoint one spokesperson for their position on each resolution.
   b. The most important point is to become involved in this convention. No matter if it is in the committees, the delegations, or the House of Delegates. Your participation not only benefits SOMA, but more importantly it benefits your personal growth and development.
   c. Last of all don't forget to have fun and enjoy the convention.

MOTIONS
1. Types of Motions:
   A) Main
   B) Subsidiary
   C) Incidental
   D) Privileged

2. Main Motions:
   The purpose of a Main Motion is to bring an item of business before the assembly for consideration. It requires a Second and is capable of being modified by Subsidiary Motions. Resolutions are Main Motions.

3. Subsidiary Motions:
   This class of motions modifies or applies to a Main Motion. They have a specific rank in order of vote recognition. A Subsidiary Motion may outrank the motion below it in order, but can be outranked by the motion above it. They are, in order of importance:
   A) Postpone Temporarily (also known as Tabling the Motion)
      This is the highest ranking of the Subsidiary Motions. It's purpose is to set aside the present business before the assembly. This may be utilized in order to allow more time to gather information, to allow other business to take place, or to allow for further "politicking." To return the motion as an order of business, a motion to "Take from the Table" is made.
   B) Vote Immediately (also known as Calling the Question)
      This is a highly useful motion in order to stop debate and to bring the question(s) to a vote. This is neither debatable nor amendable. After being Seconded, it requires an immediate vote with a simple majority necessary for it to be carried. If approved the question(s) that were before the assembly when debate was terminated are then voted on immediately.
   C) Modify Debate
This motion is used to change the extent of debate by either limiting or extending the time allotted for it. Because this motion effects the rights of individuals, a simple majority is necessary for it to be passed.

D) **Postpone to a Definite Time**

This is used to postpone a vote or further discussion to a more optimum time. This motion differs from Postponing Temporarily by establishing a specific time at which the question is automatically brought back to the assembly for further action.

E) **Refer to a Committee**

This deals with transferring a Main Motion from the assembly to a specified committee. Referrals can be made so that a report is produced by the committee to recommend what further actions should be taken.

F) **Amend**

This is used to change the wording or mechanism of a Main Motion. There are five ways that one can amend a motion:

1) **Strike Out** the unacceptable or highly debatable wording.
2) **Insert** new wording to correct an oversight.
3) **Strike Out and Insert** to modify wording to an acceptable form.
4) **Substitution** of a word.
5) **Friendly** amendment whereby wording is changed with author approval and no vote is necessary for acceptance.

Remember that only two amendments may be on the floor at any one time. A third amendment is Out of Order until at least one of the other two have been dealt with.

G) **Postpone Indefinitely**

Though the lowest ranking Subsidiary Motion, it is a very useful one that is too frequently overlooked. It's purpose is to remove a motion from any further discussion for the remainder of the meeting.

4. **Incidental Motions:**

A) **Parliamentary Inquiry**

This allows you to ask the Speaker as to procedure.

B) **Divide the Assembly**

This allows you to request another vote if you felt the voice vote was indecisive.

C) **Point of Order**

This calls attention to an error in procedure and asks for a ruling by the Speaker.

D) **Divide the Question**

Any time a Main Motion has two or more parts to it, they may be considered individually. The Speaker shall decide on the request.

5. **Privileged:**

These motions are usually urgent and require immediate attention by the assembly and therefore outrank all other motions. They are, in order of rank:

A) **To Adjourn**

B) **To Recess**

C) **Question of Privilege**

This is a motion that requests immediate action on the comfort, convenience, rights or privileges of an individual or the assembly.

This Code has been modified from the American Osteopathic Association’s Code of Ethics that was designed to guide its member physicians in their professional lives. Our hope is that this Code will guide our member student physicians in their academic and training years.

Section 1. The student physician shall keep in confidence whatever he/she may learn about a patient in the discharge of training duties. Information shall be divulged by the student physician when required by law, or when authorized by the patient or physician in charge of training.

Section 2. The student physician shall give a candid account of the patient’s condition to the patient after consulting with those responsible for the patient’s care.

Section 3. The student physician-patient relationship must be founded on mutual trust, cooperation, and respect. The patient, therefore, must have complete freedom to choose his/her physician and student physician. The student physician shall not refuse to accept patients because of the patient’s race, creed, color, gender, sexual orientation, national origin or handicap. In emergencies, the student physician shall make his/her services available, if no other professional services are immediately available.

Section 4. The student physician is never justified in abandoning a patient. The student physician shall give due notice to a patient or to those responsible for the patient’s care if it becomes necessary for him/her to withdraw from the case.

Section 5. The student physician shall practice in accordance with the body of systematized and scientific knowledge related to the healing arts. The student physician shall maintain competence in such systematized and scientific knowledge through study and clinical applications.

Section 6. The osteopathic medical profession has an obligation to society to maintain its high standards and, therefore, to continuously regulate itself. A substantial part of such regulation is due to the efforts and influence of the recognized schools and their chapters and local, state, and national associations representing the osteopathic medical profession. The student physician should maintain membership in and actively support such associations and abide by their rules and regulations.

Section 7. No student physician shall advertise for or solicit patients.

Section 8. The student physician shall designate his/her osteopathic medical school of training in all professional uses of his/her name.

Section 9. The student physician shall obtain consultation whenever requested to do so by the patient. The student physician shall not hesitate to seek consultation whenever he/she believes it to be advisable.

Section 10. In any dispute, between or among student physicians or between student physicians and practicing physicians, involving ethical, organizational, or training affairs, the matter in controversy should first be referred to the appropriate arbitrating bodies of the school, hospital, or profession.

Section 11. In any dispute, between or among student physicians or between student physicians and practicing physicians, regarding the diagnosis and treatment of a patient, the attending physician has the responsibility for the final decisions, consistent with any applicable osteopathic medical hospital or school rules or regulations.

Section 12. The student physician shall respect the law. When necessary the student physician shall attempt to help to formulate the law by all proper means in order to improve patient care, public health, and educational and training issues.
Section 13. The student physician should, whenever possible, participate in community activities and services.

Section 14. The student physician shall, at all times during their training years, endeavor to teach and pass on their knowledge and experience to other students.

Section 15. The student physician shall, through their training duties and public contact, promote the ideals and principles of osteopathic medicine.

Section 16. The student physician shall work to establish lines of communication with other health science students and organizations and with the practicing physicians and their professional organizations.

Section 17. No code or set of rules can be framed which will particularize all ethical responsibilities of the student physician in the various phases of his/her training years. The enumeration of obligations in this Code of Ethics is not exhaustive and does not constitute a denial of the existence of other obligations, equally imperative, though not specifically mentioned.
